Backing

One-side-coated bleached kraft paper, with crush-scored lines, running in the machine direction, 35 mm apart. Bending along one of the lines will crack the backing open for easy removal. The functionality of scored backing products is strongly related to label size. We advise not to use scored backing for labels larger than A5 (148.5 x 210 mm) or smaller than A8 (52 x 74 mm). Also, the direction of the score lines is of importance; it is commendatory to have the score lines parallel to the short side of the label. For products not complying to these recommendations Torraspapel - Lecta does not take responsibility for the functionality of the score lines.
